Dr. Lee Chia Kuang invents new software Dematel Digraph

10 January 2021

A lecturer from the Faculty of Industrial Management (FPI), Universiti Malaysia Pahang (UMPA), has invented a new software called Dematel Digraph.

According to this Kedah-born researcher, Dematel Digraph is a new system and software tool for decision-making digraph based on the Dematel algorithm (Decision Making Trial Evaluation Laboratory).

“It collects input from decision-makers through questionnaires (available online).
