Remain 5-star achievement, UMP focuses on improving high

Universiti Malaysia Pahang (UMP) will continue to strengthen its efforts in advancing and expanding higher education and Technical and Vocational Training (TVET).

Various efforts are being developed to focus on improving the country's technical capabilities, including academic programmes to produce holistic graduates.

For QS Stars University Ratings 2022 evaluation assessed by the Rating System Quacquarelli Symonds, UMP will maintain its 5 star achievement based on overall achievement until 18 January 2025.

According to Professor Ts. Dr. Yuserrie Zainuddin, who performs the function of the Vice-Chancellor, UMP is committed to collaboration networking between UMP and local and foreign industries to further enhance the technical capabilities of graduates.

UMP researchers develop SCAV self-driving bus for campus

With various expertise in the engineering and technology field, researchers from Universiti Malaysia Pahang have developed a Smart Campus Autonomous Vehicle (SCAV) bus with a computer system to move on its own without a driver (self-driving).

The Smart Campus Autonomous Vehicle (SCAV) is equipped with various sensors and smart technology to navigate and move from one point to another by itself through the control of a computer system equipped with on-campus maps.

The Head of Programme (Mechatronics Engineering), Faculty of Manufacturing and Mechatronics Engineering, Universiti Malaysia Pahang, Muhammad Azzat Zakaria, who specialises in self-driving car technology engineering (autonomous vehicle engineering), said the SCAV bus in Malaysia developed by internal experts.

“Currently, the development process is in the final stages with 80 per cent completion and is now focusing on refining the navigation technology in the bus itself.
